We deliver Logistics Solutions dedicated to the specific needs of the Aerospace Supply Chain

Network business

- Size is key for a high supply density and for economies of scale when purchasing transport capacity
- Door-to-door solutions thanks to a global presence in more than 130 countries

Broad customer base

Inbound to Manufacturing

AOG Management 24/7

Engine Transport

Spare Parts Distribution

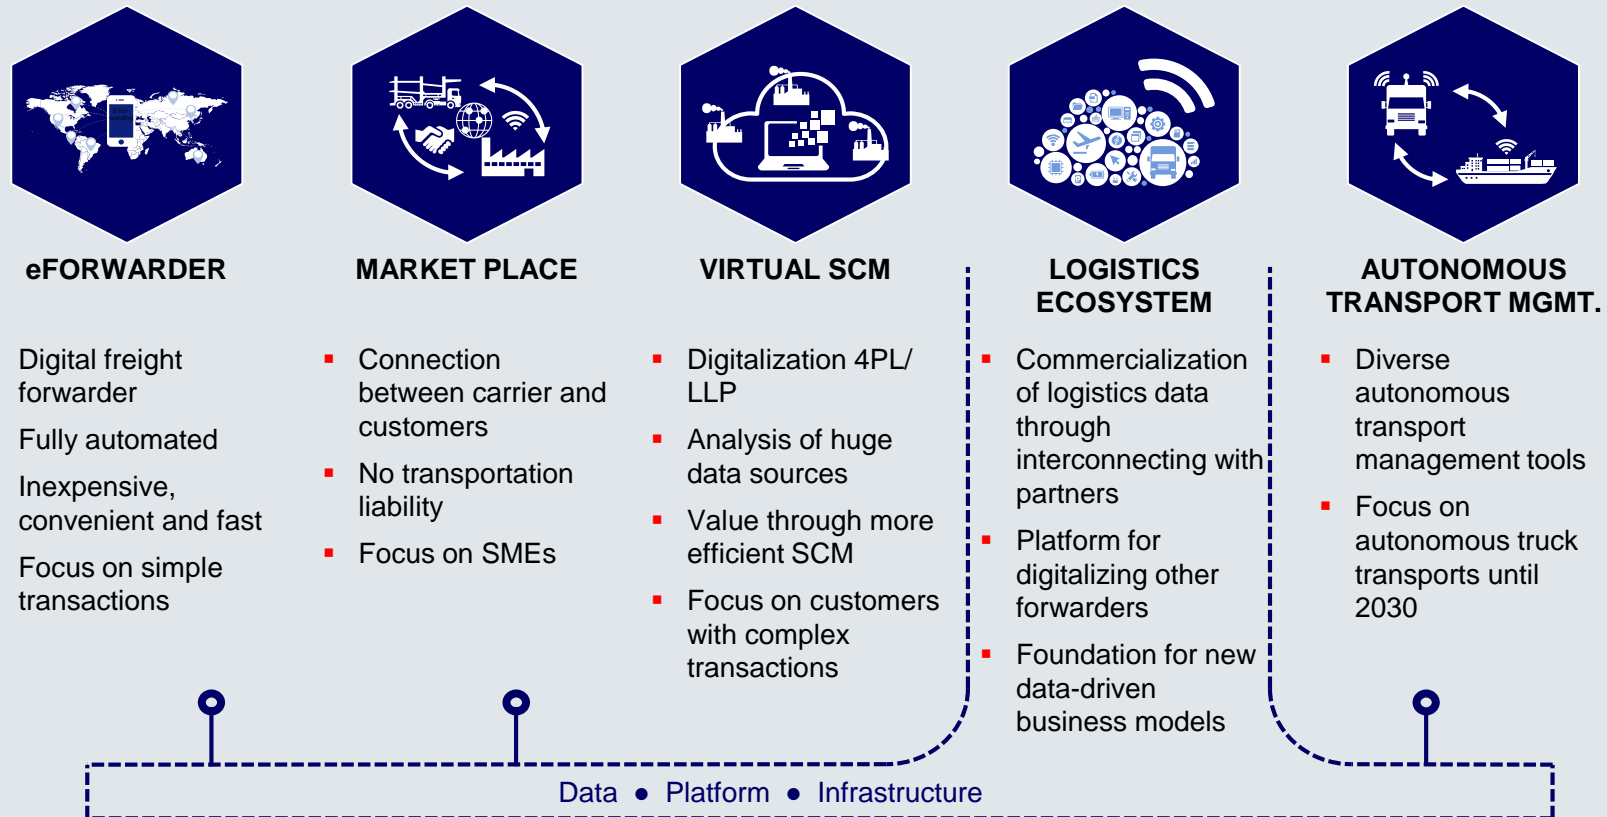

Order Management

Special Transport

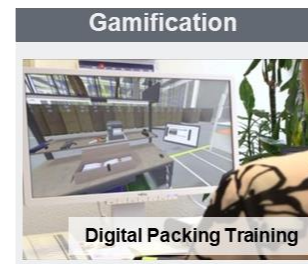

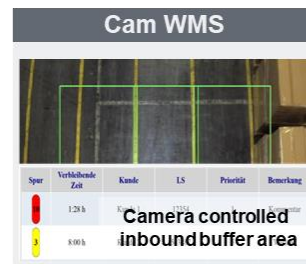

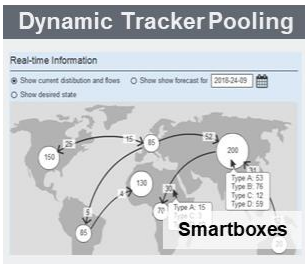

Consulting and Supply Chain Reengineering

Implementation Support and Continuous Improvement Processes

Digital ambition: A definition of DB Schenker's mid- and long-term ambitions through considering multiple business-relevant archetypes.

Pilot Projects and Solutions

Putting Innovation into Practice: **Pilot Projects**

Looking for new ideas, developing innovative concepts and transforming them into the business through pilot projects in **collaboration** with **customers** is one of the main tasks of our Innovation unit.

Industries with complex Just-In-Time Supply Chain Management could benefit from drones

Traffic jams and congestions cause disruptions within supply chain that can lead to production line downtime

**COSTS OVER 20,000 EUR PER MINUTE,
i.e. OVER 1M EUR AN HOUR**

!!!

Heavy-Lift utility drone creates the whole new product category

Key Performance Figures

■ PAYLOAD:	200kg
■ CRUISE SPEED:	80km/h
■ ENDURANCE:	30min (fully electric) 2 hours (hybrid)
■ RANGE:	40km (fully electric) 160km (hybrid)
■ SERVICE TIME:	5min
■ CHARGING:	90min

**The question is not
whether but when!**
